RE: Agreement to create mutual/joint responsibility for construction of Mallow Lane extension / SWCSD middle school site

This letter is intended to document the general agreement between the city of Grove City and the South-Western City School District regarding the construction of the Mallow Lane road extension, across the southern border of the new middle school site, south of Holton Road. The agreement that has been reached is basically as follows:

1. The city of Grove City and the South-Western City School District have agreed it is reasonable and expected that the entire road should be completed from west to east, across the southern border of this middle school property at one time. In addition, the timing of the construction should be such that it would occur as part of the site project package for the new middle school construction.
2. The city of Grove City and the South-Western City School District have agreed that in order to be most cost-effective in contracting for this work, that the school district will be the entity through which bidding and contracts will be awarded.
3. The city of Grove City and the South-Western City School District have agreed that the level of compensation, as agreed to by each entity, is as follows:

City of Grove City	56% of total construction costs
South-Western City School District	44% of total construction costs (road infrastructure and bike path)

Based upon the amount of the contract being \$329,900 the City of Grove City's share is \$184,744 and the SWCSD's share is \$145,156.

4. The city of Grove City and the South-Western City School District have agreed that a concrete sidewalk on the north side of the Mallow Lane extension will be replaced in the bid documents by an eight-foot bike path utilizing standard City of Grove City specifications for the same.
5. The City of Grove City and the South-Western City School District have agreed that R. L. Edwards will provide the engineering for the road and that we will utilize his specifications and design in the bid documents for this work.

In order to move forward with the bidding of this project, we would like to utilize the aforementioned points of agreement regarding this project as a way to formally define this joint venture. If the above meets the city of Grove City administration's approval inasmuch as the South-Western City School District has agreed to the same, please execute this agreement by virtue of your signature on behalf of the city of Grove City.

Sincerely,

Michael Bobby  
Quality Assurance Manager  
South-Western City School District

As of February 14, 2000 the City of Grove City has previously appropriated \$150,000 in good faith to fund the City of Grove City's share of this project. The final acceptance of the agreement is contingent upon the City of Grove City appropriating the remainder of their share, which is \$34,744. Any change orders required to complete the project shall be mutually agreed upon by both parties hereto, and subject to approval of additional funding to complete.
